## ABOUT THE SHOW

The Exhibit is free and open to the public. It will be held inside the Meeting Room at the Sanger Branch of the Toledo Lucas County Public Library. Guild members will be present at the exhibit during all show hours. Various needlework techniques will be demonstrated during the exhibit.

## ENTRY ELIGIBILITY

All entries must be finished pieces using a needle with an eye. Pieces may not have been entered in any previous Needle Arts Guild of Toledo Judged Show. Categories may be reassigned by the show committee or judge if appropriate based on the piece. Entry forms must be received by Monday, September 5, 2022, and entries must be submitted by Wednesday, September 14, 2022 to be judged. Pieces **must remain on display** in the show until it closes at 4pm on Sunday, September 25, 2022.

Entries must be submitted to the Show Chairman, Diane Myers. They may be brought to the NAGT meeting on 9/14/22, or you may contact her by phone at 419-705-8156 or e-mail [jrmyers@roadrunner.com](mailto:jrmyers@roadrunner.com) for earlier drop-off. Entries must be packaged to avoid damage (bubble wrap, towel, etc.). You may use a small box for small pieces. Entries will be unpacked and repacked at least three times: at check-in, for judging, and for display. Please label your packaging with your name and the title of your piece to allow our staff to repack your entry easily. Please mark Display Only items so they don't need to be unpacked for judging.

All shipment costs must be paid for by the entrant. The Needle Arts Guild of Toledo assumes no responsibility for pieces damaged during transit. Contact the registrar, Susan Pellitieri, by phone at 419-382-1329 before 11pm or e-mail [NeedleArtsToledo@aol.com](mailto:NeedleArtsToledo@aol.com) for information.

## DISPLAY ONLY ENTRIES

This year, stitchers may submit one piece for Display Only. This piece will not be judged, and will not be eligible to be submitted in a future show. No entry fee will be charged for this entry.

## SPECIAL AWARDS

In addition to the regular Judge's, Guild and Popular Choice awards, there will be three additional awards:

- Triathlon - Best total three scores from three different categories.
- Legacy Award - Outstanding creativity in original or adaptation, honoring the memory of prior members.
- First Timers Award - Highest score from a first-time participant.

## DESCRIPTIONS AND DOCUMENTATION

The show catalog and display cards will have a title and description; these are required. The descriptions should not be too long, just a small note to help identify the piece. Some examples: "A painted canvas worked in various threads and stitches, designed by Jennifer Pudney. In this class project, I used a stitch guide and suggested threads by Kathy Fenchel, although I did make some changes." or "A Dragon Dreams, Inc. design worked with black silk and highlighted with Kreinik floss." or "17th Century English Style Sampler. A group correspondence course with Ilse Altherr, instructor."

**Class Projects:** If your piece was from a seminar or a group class, please let us know so we can include that information in the description. Some examples: 2018 EGA National Seminar, 2017 EGA Great Lakes Regional Seminar, NAGT Class Project, Group Correspondence Course.

## CATEGORY CLARIFICATIONS

Silk and Metal: The use of silk and *metal* threads for embroidery. The embroidery can be worked on any fabric, evenweave, non-evenweave or canvas. Metal threads usually contain some gold, silver or other metal and often must be couched or worked as beads, although some fine Japanese gold and silver can be used as a thread and stitched into the fabric. They may tarnish and work done with these threads is not washable. Examples include true metal threads such as plate, Japanese gold and silver, passing thread or tambour, bullion and purl or Jaceron. Metallic threads have the appearance of metal threads but are made of synthetic materials (for example, Kreinik threads). These threads are less expensive, often easier to work with, and are washable. Pieces stitched with metallic threads are not eligible for this category unless a *substantial* amount of metal threads are also used.

Mixed Technique: Two or more techniques combined in one piece. For example: free surface embroidery on canvas-worked ground, or a piece that has substantial amounts of cross stitch and hardanger. Please note that a piece that has predominantly one technique with small embellishments of a different technique should be entered in the predominant category. For example: a cross stitch piece with a small amount of hardanger should be entered in the cross stitch category; a hardanger piece with a small amount of cross stitch should be entered in the open work category. The mixed technique category is for pieces that display *a significant amount of multiple techniques*.

## CLASSIFICATION

- O Original: An original work is one which, from the beginning, is solely the creative product of the stitcher.
- A Adaptation: An adaptation is needlework inspired by or based upon a source *other than needlework* and modified through significant change. Source(s) are to be documented.
- C Commercial: Commercial designs are works from kits, charts, preworked centers on canvas work, painted canvases following instructions provided. Credit to the artist, company, etc. should always be given when the piece is exhibited.
- I Interpretation: An interpretation is needlework *developed from a needlework design* (chart, painted canvas, class project, etc.) and modified by the stitcher through the use of different colors, materials and stitches from the original design. Source(s) are to be documented. Minor color changes, such as a different outline color, may not be interpretations whereas significant color changes such as a scheme different from the published design would be classified as an interpretation.
